Use the number at the top of the triangle to find at least 5 math questions

1) Find only addition questions

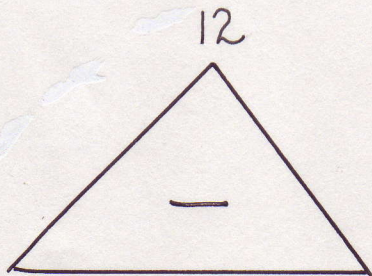

$$\begin{array}{l} \underline{5} + \underline{\quad} = \underline{10} \\ \underline{7} + \underline{\quad} = \underline{10} \\ \underline{6} + \underline{\quad} = \underline{10} \end{array}$$

$$\begin{array}{l} \underline{10} + \underline{\quad} = \underline{10} \\ \underline{4} + \underline{\quad} = \underline{10} \end{array}$$

1) Find only subtraction questions

$$\begin{array}{l} \underline{12} - \underline{\quad} = \underline{6} \\ \underline{12} - \underline{\quad} = \underline{12} \\ \underline{12} - \underline{\quad} = \underline{4} \end{array}$$

$$\begin{array}{l} \underline{12} - \underline{\quad} = \underline{7} \\ \underline{12} - \underline{\quad} = \underline{8} \end{array}$$
